

NEW HOPE COMMUNITY CHURCH VISION 2011

Adoring Jesus

We see a church fully engaged in pursuing the presence of God, guided by the authority of His life-giving Word. We seek to inspire worshippers to joyfully touch heaven through fulfilling, meaningful praise and worship that changes not only ourselves but the world.

- We will make every effort for our worship experiences to be both stirring and relevant by employing the necessary and appropriate support systems and personnel to make it so.
- We will renovate our current building – especially the gallery and sanctuary – to enhance a guest’s worship experience as they immediately enter New Hope.

Loving People

We see a church that is so Kingdom-focused it goes to extraordinary lengths to love people from every age, nationality and walk of life. We see a church filled with compassion where people are transformed from impossible situations into a loving community of hope, where Christ is shared and people find His forgiveness and our acceptance. We see a church sacrificing to meet the needs for those less fortunate across the street and those around the world.

- We will strive to reach people of all ages, from the cradle to the grave. We will build upon our existing adult ministries and reenergize our efforts to reach young families, young couples, teens and children. We will ensure our youth are involved and mentored alongside our members and leaders. We will continue growing our special needs outreach and ministry, “Hope’s Calling.”
- We will designate 10 percent of our operating budget to missions, both local and overseas, and endeavor for 20 percent total, with an additional 10 percent in designated mission offerings.

Equipping the Church

We see a church thoroughly committed to discipleship... devoting the necessary resources to train, equip and empower each new generation of young people and leaders with a Biblical Worldview.

- We will implement relevant, innovative teaching curriculum that motivates members and guests.
- We will look at current and short-term needs for adequate and modern spiritual development space, potentially building additional all-purpose space for the future.
- We will additionally transform or create dedicated space for teaching adults and children separate from the child development center.
